Want to learn how to build and manage your own website?

This two-day, beginner-level course is perfect for business owners, organizations, and individuals looking to set up their first website, or maintain the website they currently have. We will show you how to use an exciting and easy-to-use tool called WordPress - which is totally free to download and install! This course will teach you everything you need to get up and running on your own.

Course Outline

Day One:

- What is WordPress?
- Installation on your own server
- How to plan your website
- Using the WordPress Dashboard
- Adding Content

Day Two:

- Configuring WordPress
- Interacting with your readers
- Installing and using plugins
- Installing and using themes
- Adding multiple users to your site

Upon completion of the course, students will receive a complimentary copy of WordPress for Dummies, and a discount off webhosting at Websavershosting.ca
