# RealContract

ENTERPRISE CONTRACT LIFECYCLE MANAGEMENT

# Turn Contract Complexity into Business Value.

RealContract centralises your contracts, automates key processes and gives you complete visibility from request to renewal.

## Common Contract Challenges

### Contracts are hard to find.

Bring all your contracts into one secure, central repository with powerful search and metadata.

### Approvals take too long

Automate workflows, approvals and routing to eliminate manual processes and bottlenecks.

### Renewals and obligations get missed

Track key dates and tasks with alerts and notifications so nothing fallls through the cracks.

### Limited visibility and control

Get real-time dashboards and reporting to manage risk, ensure compliance and make better decisions.

## Manage every contract through its entire lifecycle.

Request → Draft → Negotiate → Approve → Sign → Manage → Monitor → Renew

## Key Functionality

### Contract Management

- Templates and contract types
- Metadata and search
- Version control

### Workflow & Governance

- Configurable workflows
- Approvals and routing
- Permissions and audit trails

### Ongoing Management

- Obligations and key dates
